

UMA GARDEN

Fire-Based Cooking Meets Backyard Conversations

Bali, December 2022. Nestled in the outskirts of Umalas, a stone's throw from Seminyak's hustle and bustle is Uma Garden, a fire-based kitchen built on the humble philosophy of bringing people together around real food and good vibes. Designed as a neighborhood hotspot, Uma Garden boasts a stylishly rustic ambiance on a trendy and vibrant street, surrounded by a now rare sighting of rice paddies.

The lounge and bar area greet guests, showcasing creative concoctions of a finely curated selection of imported wines, smoky cocktails and craft beers, taking guests to the dining area with a theatrical open-flame kitchen as the center stage. The space displays rustic wooden panels and beams, dark wooden tables and tropical plants, creating a smooth transition between the lounge and the garden. The heart and soul of the restaurant, the garden consists of communal dining tables that encompass a sharing experience and Uma Garden's persona as a community hub inspired by traditions, togetherness, simplicity and creativity.

"A GARDEN IS NOT A PLACE, IT'S A JOURNEY."

- Monty Don

Uma Garden is a journey through sight, sound, scent and taste.

At Uma Garden, we combine wood-fire cooking and premium ingredients, sharing age-old culinary traditions with communities through a theatrical open-flame cooking experience, a primitive technique that lets the ingredients speak for themselves. It's a return to simplicity, no matter the origin, that we elevate to a true epicurean experience.

"We carefully select our wood as the key seasoning to our cuisine, bringing richness and depth to simple ingredients and adding distinct flavors that only smoke and flame can impart," explains owner Allard Sjollema.

Ranging from a selection of wood-fire meat and sea produce to grilled vegetables and pasta, our menu is a diversified array of flame-kiss dishes inspired by sharing experience and togetherness. Discover premium meat selections such as Pork Ribs BBQ, Australian Wagyu Skirt Steak and Australian Wagyu Tomahawk, along with seafood picks such as Grilled Prawns and Grilled Grouper, where we use fresh, locally sourced seasonal fish and seafood, ember-grilled to perfection.

Between the rustic charms of the lush tropical garden, the bolstering flavors of grilled meat,

the smoke coming out of the wood-fire, the conversations and the laughter, Uma Garden goes beyond a great menu filled with delicious dishes. It's about sharing stories, moments, and memories that last a long time.

ABOUT UMA GARDEN

Uma Garden is entirely rebuilt with a new concept born of Tavolo Group's vision to realize unique concepts in Bali. Stylishly blends the natural beauty of a green lush garden with simple, rustic charms, at Uma Garden we celebrate ingredients, in their simplest nature. With a theatrical over-fire cooking experience, that passion for all things fire is translated at all levels of the menu and experience. At its core, Uma Garden isn't about BBQ. It isn't about meat. It's about companionship and community. It's about the warmth and time that people dedicate at the table, making food a cultural language that touches and connects all.
